

## Graphic Design Intern

Project Title	Graphic Design Intern
Project Summary	Let your creativity come through. This internship gives budding graphic designers the opportunity to work virtually in a government environment.
Country	United States

## Project Description

During this internship you will work with the National Institute of Corrections to develop and/or revise the design of technical documents written specifically for corrections audiences. You will have an opportunity to communicate data through imagery, converting abstract concepts into concrete visuals. You will be expected to attend weekly team meetings by telephone and Internet. All meeting times are Eastern. Native English speaking and writing proficiency is required. Interns must have access to their own graphic design equipment.

## Required Skills or Interests

### Skill(s)

Graphic design

Infographic design

## Additional Information

An interest in criminal justice and/or pursuit of a career as a professional graphic designer is preferred. The ideal candidate will have an understanding and enthusiasm for publication design, usability, information architecture, and related concepts or have a strong willingness to learn. Knowledge of DITA or XML would be a huge plus.
